

Highland Electrical

YOUR TRUSTED ELECTRICIANS

Homeowner Care Plan

**When did you last give your home an Electrical MOT?
Enjoy peace of mind for just £12.99 + VAT per month!**

With our full-coverage maintenance and testing plan, we'll actively inspect your property regularly to keep you safe and save you money. Safe electrics in your home for just £12.99 + VAT!

As one of our valued customers, we'd like to introduce you to an important new service available today. Your home is your most valuable possession, but unlike a car, it doesn't receive a regular "MOT". The electrical systems in your home are a crucial part of keeping your family safe. Electrical faults can occur at any time in a property that hasn't been regularly inspected, and our aim is to ensure that you know the electrical health of your home. Your peace of mind is our priority!

The Highland Electrical Emergency (HEE) Maintenance Plan covers your property for a minimum 12-month period. For just £12.99 + VAT per month, you'll have complete confidence that the electrics in your property are safe and sound. Unlike other plans, we'll inspect your property regularly to ensure everything is in working order.

Highland Electrical

YOUR TRUSTED ELECTRICIANS

The HEE Plan includes these essential steps for maintaining the electrical health of your property:

- **Annual Visual Inspection:** Your property will be visually inspected every year by one of our fully qualified electricians (not included in other plans).
- **Repair of Accidental Damage to Electrical Wiring:** Any accidental damage to your home's electrical wiring will be covered.
- **Repairs to Switches, Sockets, and Local Isolators:** We will repair any accidental damage you cause to your light switches, sockets, or local isolators (excludes the fusebox).

Additional Benefits:

- **Full Domestic Inspection:** After five years of membership, you'll receive a comprehensive domestic inspection.
- **Priority Response in Emergencies:** In the event of an electrical emergency, we'll respond within six hours of your call! (Up to four free callouts per year; an excess of £80 + VAT applies to each additional callout.)
- **Standard Fittings Replacement:** If any standard fittings need replacing, the plan covers parts and labour.
- **10% Discount on Electrical Installations:** Receive a 10% discount on any additional electrical installation work booked with us.

We believe the HEE Plan is a valuable addition to your household maintenance, helping you save £££s in the long run!

To start the plan, all you need is an initial investment of £80 + VAT for an inspection to check your current system, or to confirm a satisfactory EICR, and then just a small monthly payment of £12.99 + VAT.

If you need further information or would like to join the plan today, please contact us on 01509 277479 or email info@highland-electrical.co.uk.
